ABOUT CCSAA

Cross Country Ski Areas Association (CCSAA) is a non-profit organization representing member ski service providers. The Association's purpose is to promote the growth and improve the quality of cross country ski operations in North America.

CCSAA is a resource to the ski area operator, providing industry information to members; stimulating improvements within the industry; and sponsoring debate and idea exchange within the organization. CCSAA acts as a clearinghouse of information on cross country skiing to the media.

CCSAA is a 501-C-6 non-profit association as defined by the IRS. Contributions or gifts are not deductible as charitable. CCSAA is governed by a 16 member, elected Board of Directors. The Association maintains headquarters in New Hampshire, staffed with a full-time executive director. For more information on CCSAA membership contact:

603-239-4341

www.xcski.org

OUR SPONSOR

CCSAA appreciates the support of General Mills, Nature Valley Granola Bars. Their program helps CCSAA to promote cross country skiing and snowshoeing.

IN THIS DIRECTORY are members of the Cross Country Ski Areas Association. Whether it's called a cross country ski area, an outdoor center, an adventure center, a nordic center, a ski resort or a touring center; these places specialize in winter fun and invite you to their trails for the best cross country skiing and snowshoeing.

The Directory organizes the nordic centers first by country (Canada & U.S.) and then by state and province. State and provincial xc organizations are listed before the resorts and trails. Local ski shops are listed at the end of each state's resorts and trails.

www.xcski.org There's more complete information at www.xcski.org where you can link directly to individual ski areas and businesses. Daily snow conditions and a nordic events calendar are also on the site.

TRAILS Noted in the Directory are a ski area's machine-groomed trails. Some areas have additional kilometers of trails which are left ungroomed for a different ski or snowshoe experience. XC trails are generally measured in kilometers which are .6 miles and abbreviated by km.

Easier

More Difficult

Most Difficult

These national standard signs indicate relative difficulty of ski trails at each area. Please choose trails appropriate to your ability and fitness.

RENTALS Most nordic centers rent ski equipment. We have noted the exceptions in the Directory. Snowshoes and children's pulk sleds may also be available to rent. Inquire about available rental gear before leaving home.

LESSONS Since most cross country ski areas offer lessons, we don't mention it in each listing. Be sure to ask when lessons are available. After a couple hours of instruction you'll have the skills for a lifetime of enjoyment. Instruction helps even an experienced skier to improve.

DOGS ON TRAILS Not all nordic centers are able to welcome skiers with their dogs. Many ski area trails cross private property and protecting access for skiers is of primary concern for the nordic center. Please inquire with the ski area before bringing your dog.

SNOWSHOEING Most cross country areas invite snowshoers to use their trails. Some nordic centers designate trails specific for snowshoers. Be sure to ask which trails are for snowshoeing. If the trails are shared with xc skiers, stay off the groomed tracks and yield to skiers.
